PLUG IN ICA SUMMER SCHOOL APPLICATION

This application is to participate in Plug In ICA's Summer School, a pilot artist's residency/art school program. The program content will be determined by the participants in a largely self-directed manner. However, participants will be expected to engage from time to time in informal forums and discussions on ideas of art school, in order that Plug In may develop future programs complimentary to the needs and desires of artistic communities. This program offers a shared gallery environment with no accommodations and minimal equipment or technical support. The focus will be on ideas and conversations, facilitated in part by visiting international curators and others. For more information, please refer to www.plugin.org, or contact info@plugin.org.
